CULTURE OF CARE

Delta  Gamma

THOUGHT LEADERSHIP

FRATERNAL
&
PHILANTHROPIC

H A R M O N Y

The phrase culture of care represents a public declaration of Delta Gamma's intention to emphasize and reinforce the founders' directive to spread hope through character and service, to confront members whose poor choices demonstrate a lack of respect for themselves and others, and to cultivate the special love that makes Delta Gamma's sisterhood sparkle. This is a vision of Delta Gamma ascendant: idealistic in its support of members pursuing and achieving dreams and goals, innovative in its individualized engagement and programming, a pioneer in philanthropic cooperation and partnership, bold in its commitment to and pursuit of diversity, relevant in today's values-based fraternity/sorority community and beyond, a powerful force for good, nearly 150 years strong and growing.
