

Why We Center **BEID**

Belonging, equity, inclusion and diversity (BEID) are at the core of Article II.

That means we must continue to value one another deeply, listen to one another actively and value the identities and lived experiences of our sisters. We will do good by continuing to grow and learn in community with one another.

The Promise of Friendship

This is why we exist.

We began with the **hope** of our Founders.

We ground ourselves in our purpose of authentic sisterhood and doing good in the world, and when we commit to our sisterhood, **we promise friendship to one another.**

Provide Empathy and Assistance

This is the action we take.

Our intent to do good is not enough. **We must take action and focus on our impact.**

We are called to assist and remain alongside our sisters with respect and empathy.

A Champion and a Friend

This is the result.

A relationship of authentic connection where we are expected to show up as a champion and friend to our sisters so each Delta Gamma can experience inclusion and belonging.
