ANCHORED through ADVERSITY

MENTAL HEALTH PROGRAMS & SERVICES
Executive Offices is proud to introduce Anchored Through Adversity, the Fraternity’s first-ever suite of mental health programs and services for collegians, alumnae, advisers and Friends of the Anchor.

Delta Gamma continues to build a strong foundation of fostering high ideals of friendship, promoting educational and cultural interests, creating a true sense of social responsibility and developing the best qualities of character. A Culture of Care reinforces the directive of our Founders, fosters a healthy member experience and roots every decision in the Fraternity’s mission and values and holistic well-being.

Delta Gamma strives to promote an environment where mental health and well-being is a priority in the member experience. It is necessary for collegians and alumnae to be equipped with the knowledge and skills necessary to promote the health and well-being of all members and approach conversations of expressing concern with care and sisterhood.

We want to especially thank the Delta Gamma Foundation and our incredibly generous donors for funding many of these efforts.

We hope you utilize this as a resource to be well and do good.

Behind Happy Faces - Collegiate Discussions

The link above directs you to the Delta Gamma portal of Behind Happy Faces, which includes four DG dialogue lessons, helpful resources including how to help a friend, what to do if you need help, statistics and external resources. The programs can be peer-facilitated in small groups for more intimate discussions on mental health.

Behind Happy Faces - Adviser Resource Series

The link above directs you to resources designed to help advisers identify and support members experiencing mental health challenges, how to manage crisis situations and how to take care of your own mental health. Thank you for your commitment to making mental health a priority.

Name Your Story

Name Your Story gives participants the opportunity to learn about the signs and symptoms of the most common mental health concerns affecting college students today but also provides training on how to talk about these experiences with one another. Participants will also get an opportunity to learn about self-care and how to prioritize their well-being. This thought-provoking content is immediately applicable to students' lives. By engaging with this content, students will gain tangible tools that they can use not only in their own life, but also when they are helping a friend, roommate or classmate that they care about.

This program is available in The Pursuit.

You Can Help A Sister

Developed by the JED Foundation, this program focuses on how members can support one another’s mental health and well-being. Research shows that building resiliency and life skills, promoting social connectedness and encouraging help seeking and help-giving behaviors in teens and young adults, support their overall well-being. This program assists with identifying and supporting those...
who may be struggling with mental health challenges, providing appropriate interventions, and professional help referral strategies. This program is proven to promote a Culture of Care, reduce risk, student intervention competencies and member inclusion and retention.

This program is delivered to chapters on a rotational basis as part of the Act with Intention: Health & Well-Being Series. Chapters will receive this program once every four years from a trained facilitator.

**Xcelasone: New Member Prevention Program**

New members

Xcelasone (Excel-As-One) is an interactive prevention education program that empowers members to make safer, healthier and more compassionate choices. The program covers various educational topics such as hazing prevention, bystander intervention, alcohol awareness, sexual assault prevention, the value of belonging, equity, inclusion and diversity, and mental health awareness.
Delta Gamma cares about your mental health and understands that sometimes resources outside of the scope of our organization are needed. As always, if you or a loved one needs immediate care, call 911.

**Bloom**

Bloom provides courses for survivors of sexual violence to learn and heal from trauma in a private, supportive space. Their courses are written and reviewed by survivors, allies, mental health support workers and therapists worldwide. Bloom courses can be 6-8 sections, each with a 30-minute video chat, a reflective activity to complete on your own time, reading lists and additional supportive content.

Bloom is a service provided through Delta Gamma’s partnership with Leda Health. To access bloom, please view the [Leda Health – Partnership Services](#) document in the DG library on activating your user account.

**CredibleMind**

all stakeholders in the Delta Gamma member experience

Created by the Jed Foundation, and powered by CredibleMind, this platform is a well-being and self-assessment hub and professional-vetted resource connection tool for members to take charge of their mental health and well-being. The content is adaptable to your learning style with apps, podcasts, videos, articles, books and online programs. This tool can assist the Honor Board and aid in creating a Culture of Care and accountability while promoting healthy help-seeking and help-giving behaviors. This service is approachable, easily accessible, credible and confidential – make an account for free!

Coming Soon: This service will become available during the Fall.

**Mental Health First Aid Certification**

advisers, regional teams

Mental Health First Aid (MHFA) is a blended course (7.5 hours) that gives people the skills to help someone who is developing a mental health problem or experiencing a mental health crisis. The evidence behind the program demonstrates that it does build mental health literacy, helping the public identify, understand, and respond to signs of mental illness. MHFA training helps a person assist someone experiencing a mental health crisis such as contemplating suicide. This program will have limited opportunities each academic year.

PROFESSIONAL CARE RESOURCES

When should I find professional care?
When it comes to our mental health, it can be difficult to know when it may be time to seek professional care. You may want to consider speaking with a professional if:
1. You are feeling sad, angry, or otherwise "not yourself" for longer than two weeks.
2. You are abusing drugs, alcohol, food, or sex to cope.
3. You’ve lost someone or something important to you.
4. Something traumatic has happened.
5. You’ve stopped doing activities you usually enjoy.

How do I find the right professional care for me?
Finding the right professional care for you can be daunting. This is an excellent resource that walks you through the process and gives you helpful tips on what to look for. If you have a relationship with a mental healthcare professional, reach out to them.

FindHelp.Org
FindHelp's network connects people seeking help and verified social care organizations that serve them.

Find a Therapist (Psychology Today)
